Sponsored MIT Kerberos accounts and the MIT Directory

Sponsored MIT Kerberos accounts and the MIT Directory

I have a sponsored MIT Kerberos account. Will my information show up in the online MIT Directory? If so, can I edit the information that shows up in the MIT Directory?

No. All affiliate accounts are suppressed from the MIT directory. If at some point you become a full-time staff, faculty, or student member of the community, your information will then appear in the directory.

What if I need to receive email at an alternate address?

If you primarily use another email address, see: Email Forwarding Instructions.
