# Where can I learn more about Kerberos?

## Q: Where can I learn more about Kerberos?

### Answer

You can go to Security Software to find links for obtaining Kerberos Extras for Macintosh and Kerberos for Windows.

Additional information is available in the Kerberos KB category.

> The following resources are targeted at an advanced user and operator community outside of MIT, and mostly do not mention information specific to MIT.
>
> Documentation for the latest release of the MIT Kerberos open source software is at http://web.mit.edu/kerberos/krb5-latest/doc/ . Additional information about Kerberos, including links to other information sources, is at http://web.mit.edu/kerberos/.
