How can I sponsor a community member or colleague for an MIT Kerberos account?

How can I sponsor a community member or colleague for an MIT Kerberos account?

Answer

Any current MIT faculty or staff member can sponsor a user for a guest Kerberos account. Off-campus graduate students can sponsor an account for their non-resident spouse or partner. The sponsored account will have "MIT Affiliate" status.

Guest Account Sponsorship Request Form (Touchstone Required)

Bulk requests for guest accounts may be made by an authorized Access Approver using the MIT Campus Access system.
