Sites With Documentation and Videos

Note: Some of these videos or articles may show slightly different screens or discuss modules not implemented in the MIT Drupal Cloud service. These have been included because they provide a good general overview on the topic.

- Drupal.org General Support - many support options
- Drupal.org Documentation - community developed documentation guides
- linkedinlearning.mit.edu - you will find several video courses by searching for Drupal
- Drupalize Me - look for the FREE videos or get a membership for $45/month.
- Drupal Gardens - begin on the Getting Started page then check out the **Video** and **Documentation** links in the menu bar at the top

Resources for Specific Topics

Administrative Interface

- Drupal 7 Essential Training - see Module 5: Touring the Administrative controls (LinkedIn Learning course module)

Creating and launching a website

- 15 Essential Checks Before Launching Your Website (web page)
- About Google Analytics (web page at Google.com)
