What are the basic network configuration numbers I need at MIT?

Answer

- IP Address: 18.x.y.z
- Hostname: You choose your hostname when you apply for an IP address
- Domain: mit.edu
- Gateway/Router: 18.x.0.1
- Subnet Mask: 255.255.0.0
- DNS
  - 18.0.70.160
  - 18.0.71.151
  - 18.0.72.3

Note: Your Gateway/Router depends on which building you are in.
