Overview

This application is a reporting tool for querying the Data Warehouse. Cognos is a web application, and no software installation is required. Cognos will eventually replace BrioQuery, but for now, BrioQuery reports are still available and supported.

How to Access/Obtain

The Cognos Application can be accessed here: Cognos

How to Use

- Navigating Cognos Reference Card
- Building Basic Cognos Reports
- Building Advanced Cognos Reports
- Format Cognos Reports
- Sharing Cognos Reports in My Folders

Troubleshooting and FAQ's

- Test Touchstone Authentication
