"There is a problem with this website's security certificate" - Internet Explorer error message

I am receiving the following error message:

Solution

To resolve this error message, install the MIT CA (Certificate Authority).

The MIT CA (Certificate Authority) is needed to verify the authenticity of MIT servers to your web browser. For installation instructions, see:

Installing and Renewing Certificates in Internet Explorer on Windows

Still having trouble?
Return to Certificates at MIT or go to Troubleshooting Certificates in IE.
