Notability Landing Page

Overview

Notability is a note-taking, annotation, and sketching app for Apple computers and mobile devices, enabling users to create and share notes that combine handwriting, typing, drawings, audio, and pictures.

- Create multi-media notes
- Write and sketch naturally
- Record and playback audio
- Share ideas in presentation mode
- Automatic backup and iCloud sync

How to Obtain

Visit the IS&T website to fill out a request form. You'll then receive a license and email instructions for how to download Notability for your device.
