How can Lincoln Laboratory employees update their personal information?

How can Lincoln Laboratory employees update their personal information?

Question

I am a Lincoln Laboratory employee, and am trying to use Atlas to update my personal information, but am getting an Access Denied error message.

Answer

While Lincoln Laboratory employees will be able to access benefits and payroll information via Atlas, they do not have access to update their personal information via Atlas. Lincoln Laboratory employees can view their MIT Directory information via the online directory that is linked from the MIT home page, and can contact the Lincoln Laboratory Human Resources Department, at ext 7055, to ask that MIT Directory information be updated.
