

I want to update personal information for other employees, via Atlas. What authorization do I need?

I want to update personal information for other employees, via Atlas. What authorization do I need?

To use [Atlas](#) to update personal information for other employees, you will need the Roles Database authorization, MAINT EMPL. TELEPHONE DIR. The HR Primary Authorizer for your department can send email to business-help@mit.edu to request that the authorization be added for you. Once it has been added, the authorization will be available in Atlas the following day.
