Overview

Qualtrics is a simple to use web-based enterprise survey tool to conduct surveys, evaluations and other data collection activities.

The main MIT "brand" of Qualtrics can be found at: <http://mit.qualtrics.com>

How to Obtain

Faculty, Staff, and Students

Any MIT faculty, staff or student can register for a Qualtrics account. To register:

1. Go to the [registration portal](#)
2. If prompted, authenticate to Touchstone using your MIT certificate, kerberos username and password, or a kerberos ticket.
3. Review the Usage Guidelines on the enrollment page (also available [here](#)).
4. Acknowledge you've reviewed and agree to the guidelines by clicking the checkbox and click the **Next** button.
5. Congratulations! Your account has been created! You should be redirected to your Qualtrics dashboard.

Note: This process will register you for the general MIT "brand" of Qualtrics at <http://mit.qualtrics.com>. Some DLCs maintain their own Qualtrics "brands" independently. For access to one of those, contact its brand administrator.

Affiliates

- MIT affiliates with active kerberos accounts may use Qualtrics for MIT business, but must be sponsored for access by the faculty or staff member they're working with.
