

As a DLC administrator, how can I make changes to a position title for an employee?

As a DLC administrator, how can I make changes to a position title for an employee?

- If you are an administrator for your Department, Lab or Center, with Roles Database authorization to update employee directory information, and need to make a title change for an employee, contact Human Resources via email at hr-dataupdates@mit.edu.
- If you require that information in the directory be suppressed, the directory suppression request should go to the HR Payroll Service Center at payroll@mit.edu.
