

# What can MIT OneDrive admins do with my account?

## Q: What can MIT OneDrive admins do with my account?

### Answer

IS&T depends on a small number of admins for the MIT Dropbox for Business account to manage the day-to-day business of the account. Many of these are the same admins who currently help manage the AFS lockers.

#### What can MIT's OneDrive admins do?

MIT OneDrive admins can:

- create new accounts
- suspend accounts
- deactivate accounts
- transfer user Dropbox account data to archive
- restore archived Dropbox data to reactivated accounts within 30 days of deactivation

#### What can't MIT OneDrive admins do?

- view data in active OneDrive accounts
- share folders or links
- edit shared folders or links

If you have additional questions, please [contact the Service Desk](#).
