

Access MITSIS after updating to Java 7u51 or higher

Access MITSIS after updating to Java 7u51 or higher

On this page:

[Windows](#)
[Macintosh](#)

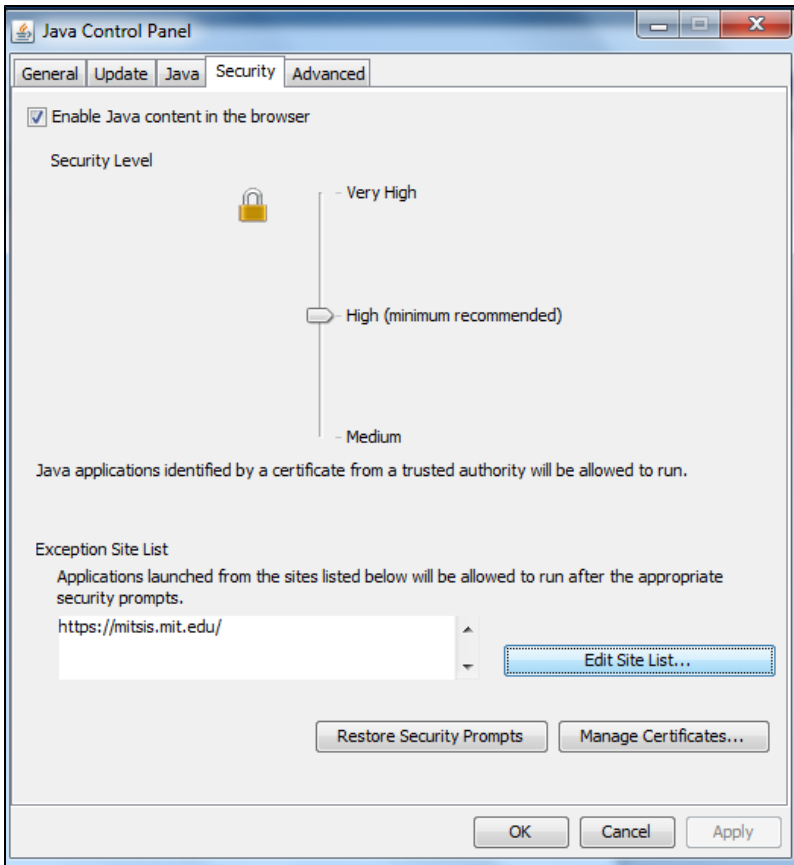

After upgrading to Java 7 update 51 or higher, you will need to use the Java Control Panel to add a Java security exception for [MITSIS](#). See below for instructions.

Windows

1. Go to **Start > Control Panel** and double click on **Java (32-bit)**

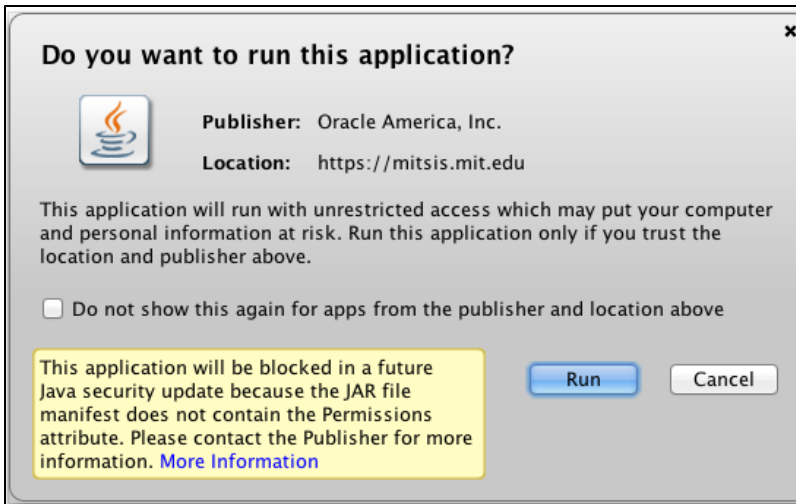

2. Click on the **Security** tab within the Java Control Panel.
3. Click **Edit Site List**
4. Click **Add** to add an exception.

5. Enter "https://mitsis.mit.edu" (no quotes) in the space provided under location.

6. Click **OK** and **OK** again to save and close windows.
7. Relaunch your web browser and navigate to <http://mitsis.mit.edu/>
8. If prompted with "Do you want to run this application?" click **OK**

Macintosh

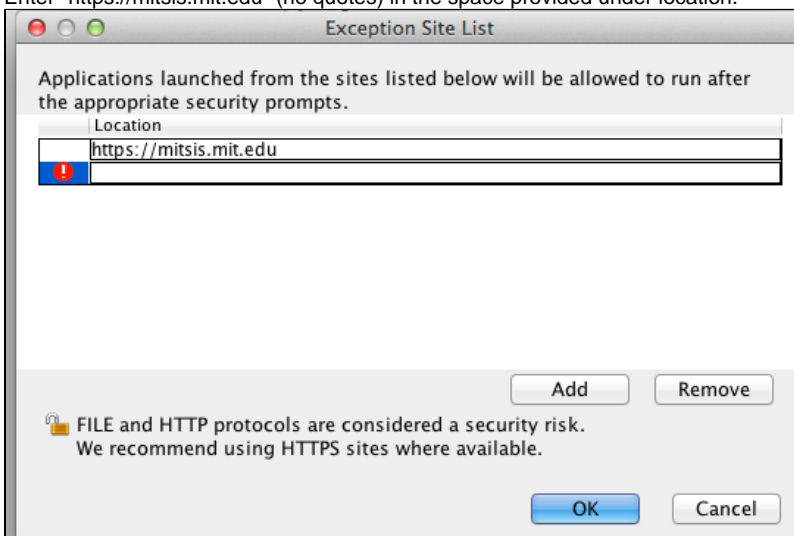

1. Go to **System Preferences** and launch **Java**.

2. In the Java Control Panel click on the **Security** tab.

3. Click **Edit Site List**.
4. Click **Add** to add an exception.
5. Enter "https://mitsis.mit.edu" (no quotes) in the space provided under location.

6. Click **OK** and **OK** again to save and close windows.
7. Relaunch your web browser and navigate to <http://mitsis.mit.edu/>
8. If prompted with "Do you want to run this application?" click **OK**

Do you want to run this application?

Publisher: Oracle America, Inc.

Location: <https://mitsis.mit.edu>

This application will run with unrestricted access which may put your computer and personal information at risk. Run this application only if you trust the location and publisher above.

☐ Do not show this again for apps from the publisher and location above

This application will be blocked in a future Java security update because the JAR file manifest does not contain the Permissions attribute. Please contact the Publisher for more information. [More Information](#)
