How do I clear my browser's cache automatically each time I close Firefox?

Q: How do I clear my browser's cache automatically each time I close Firefox?

Answer

For Windows:

1. Navigate to **Tools > Options**
2. Click on the **Privacy** tab. It looks like a mask.
3. In the "History" section next to "Firefox will:", select **Use Custom Settings for History** from the drop down menu.
4. Check the box for "Clear history when Firefox closes"
5. Click **Settings**
6. Be sure the box for "Cache" is checked.
7. Click **OK**, then click **OK** again.

For MacOS:

1. Navigate to **Firefox > Preferences**
2. Click on the **Privacy** tab. It looks like a mask.
3. In the "History" section next to "Firefox will:", select **Use Custom Settings for History** from the drop down menu.
4. Check the box next to "Clear History when Firefox Closes."
5. Click **Settings**
6. Be sure the box for "Cache" is checked.
7. Close the "Preferences" window.
