Firefox is displaying Error Code -12227

Firefox is displaying Error Code -12227

When you attempt to connect to a website that requires certificates, Firefox may display an error similar to the following:

> *web.mit.edu has received an incorrect or unexpected message.*
> *Error Code: -12227*

This indicates that your browser did not supply a certificate to the site in question. To fix this problem, you must install certificates on your machine.
