Delete MIT Personal Certificates in Internet Explorer 7 or 8 on Windows XP

Delete MIT Personal Certificates in Internet Explorer 7 or 8 on Windows XP

Warning: If you have used S/MIME for email encryption, you should export certificates, in order to retain a backup copy, before deleting them from the browser. See: [How can I tell if I've used S/MIME for email encryption?].

1. In Internet Explorer, go to **Tools > Internet Options**. The following window will appear.
2. Click **Content** to access the Content tab.
3. Click **Certificates**. The Certificates window will appear.
4. Select any extra or expired certificates and click **Remove**. A warning will appear.
5. Click **Yes**, and confirm that you have one, non-expired certificate.
