

How can I print multiple copies of a document?

How can I print multiple copies of a document?

With the exception of the final copy of your thesis, please do not print multiple copies of documents on the Pharos printers. In addition to being against the [Athena Rules of Use](#), it places unnecessary wear and tear on the printers, prevents other users from getting their printouts in a timely manner, and increases costs for everyone at MIT.

Please consider transmitting your documents electronically whenever possible or making use of the photocopiers in [CopyTech](#).
