How do I tell if my email and calendaring data is on the Exchange On Prem Server or using Microsoft 365?

How do I tell if my email and calendaring data is on the Exchange On Prem Server or using Microsoft 365?

The easiest way is to test which web email system you can access.

- Microsoft 365 uses: Outlook on the Web (be sure to use your full *username*@mit.edu email address)
- Exchange On Prem uses: Outlook Web Access
