# Why is Github giving me a "version is discontinued" error?

Q: Why is Github giving me a "version is discontinued" error?

- If you have logged in and see an error like the following there is an explanation
- "This version of Github Enterprise was discontinued on [date]" etc.

Context

- Many people use Github around the Institute and have different needs from the system.
- Because the stakeholders have many needs the version is not always updated to keep up with current versions_._

Answer

- If you have needs that are not being met by the current version please contact the helpdesk: helpdesk@mit.edu
- Likewise contact the helpdesk with other questions or concerns around the current version of Github Enterprise.
