## Share Outlook 2016 calendar so others can see my calendar

## Q: Share Outlook 2016 calendar so others can see my calendar

## **Answer**

To share your calendar with others, "Reviewer" permissions need to be applied to the desired calendar.

- 1. In Outlook, click on Calendar in the lower left hand side of the navigation pane and then right-click the desired calendar
- 2. Select Change Permissions.
- 3. Click Add User and type in the name of the individual you wish to provide review only permissions to.
- 4. Click on Add at the bottom of the screen then OK.
- 5. Select the individual from the list and then by pulling down the permission level menu, change it to "reviewer".
- 6. Click Apply, then OK.

**Note**: It is important to mark personal appointments and meetings as confidential. Failure to do so will allow those with permissions to see all your meetings and appointments.
