Overview

CertAid manages the entire certificate setup procedure for Chrome, Internet Explorer, and Safari for MacOS and Windows, giving users a more reliable installation experience. There is currently no CertAid app for mobile devices.

Key Features

- Installs the MIT CA (Certificate Authority) as well as your personal certificate.
- Deletes old certificates if needed.
- Sets correct identity preferences.

Since Certaid 2.2.5, Duo Two-Factor Authentication is required to use CertAid. For more information about Duo Two-Factor Authentication, see the [Duo Authentication Landing Page](#)

Obtaining

To download CertAid, visit [Certaid on the IS&T Software Grid](#)

Using
