

Jamf Pro - Mobile Device Management Mail Configuration

Jamf Pro - Mobile Device Management Mail Configuration

You can configure your mobile device in Jamf Pro for email with a configuration profile. To do this log in to the JSS and go to your mobile device site and do the following:

1. Select **Configuration Profiles**.
2. Click **New**.
3. Under *General* give the profile a name such as "Email."
4. Assign a category.
 - Select the **Distribution Method**.
5. Click **Exchange ActiveSync** and then configure the settings as in the image below.

The screenshot shows the 'Exchange ActiveSync' configuration profile settings in Jamf Pro. The interface is divided into two main sections: 'Options' and 'Scope'. The 'Options' section is further divided into 'General' and 'Exchange ActiveSync'. The 'General' section includes 'Passcode', 'Restrictions', 'Exchange ActiveSync', and 'Lock Screen Message'. The 'Exchange ActiveSync' section is currently selected and displays the following settings:

- Account Name:** Name for the Exchange ActiveSync account. Value: MIT Exchange
- Exchange ActiveSync Host:** Microsoft Exchange Server. Value: oa.exchange.mit.edu
- ☒ **Use SSL:** Send all communication through secure socket layer
- Domain:** Domain for the account. Domain and User must be blank for device to prompt for user
- User:** User for the account. Domain and User must be blank for device to prompt for user. Value: \$USERNAME@mit.edu
- Email Address:** The address of the account (e.g. "john@company.com"). Value: \$USERNAME@mit.edu
- Password:** The password for the account (e.g. "MyP4ssw0rd!")
- Verify Password:**
- Past Days of Mail to Sync:** The number of past days of mail to synchronize. Value: 3 Days
- Authentication Credential:** Credential for authenticating the ActiveSync account. Value: None
- ☒ **Allow messages to be moved:** Messages can be moved from this account to another
- ☒ **Allow recent addresses to be synced:** Recent addresses will be synced
- ☐ **Allow Mail Drop:** Allow Mail Drop for this account
- ☐ **Use Only in Mail:** Send outgoing mail from this account only from Mail app
- ☐ **Enable S/MIME:** Support S/MIME for this account
- Communication Service Rules:** Default app to be used when calling contacts from this account

6. Save your profile and assign to devices as desired.
