Can I share a LastPass folder with a Moira group?

Q: Can I share a LastPass folder with a Moira group?

Answer

Unfortunately, not at the current time.

This would be a great feature to have and IS&T is investigating how this could be implemented.

LastPass Shared Folders

LastPass now has shared folder support. These folders are not automatically created and do not, necessarily, directly reflect moira groups. Please see the following article on LastPass Shared Folders. How do I use LastPass Shared Folders?
