Overview

DriveSavers <http://www.drivesavers.com> is a professional, nationally renown data recovery service located in Novato, California. MIT does not have a recommended vendor partner for data recovery services, but if clients are considering sending a drive to DriveSavers for recovery, MIT has a standing discount and account representative with them. DriveSavers' recovery options tend to be very high quality, with commensurate cost. An alternative to DriveSavers, [Gillware](#), tends to have more low-cost options available.

MIT-Specific Information

When you use data recovery services as a member of the MIT community you should do so under DriveSavers Account# **DS82035**.

MIT has recently been accepted into DriveSavers *NEW* Elite Education Referral Program. MIT's Elite Education Account Number/Referral Code is: **DS82035**. This referral code is exclusively assigned to MIT. MIT staff and students must mention this Account Number (**DS82035**) when calling DriveSavers Data Recovery to receive these benefits:

- DriveSavers' BEST Government/Education rate available for Data Recovery
- A 14% discount or better off of their commercial price list
- A 27% discount off commercial list for single drive, economy recoveries, 10-200 gb in size
- NO CHARGE to store the recovered data to DVD or CD media
- NO CHARGE to send the recovered data back via FEDX 2-Day Air
- NO CHARGE if data is unrecoverable for our Standard and Economy single drive recovery attempts
