

LabVIEW re-activation with a new serial number

LabVIEW re-activation with a new serial number

This installation documentation is a direct companion to [MIT's License of LabVIEW](#).

If you have previously installed LabVIEW and the license is about to expire, you can associate the new **Serial Number** with the **NI License Manager** (Start»All Programs»National Instruments»NI License Manager).

1. Click on **Activate**.
2. Choose **Automatically activate through a secure Internet connection** by clicking **Next**.
3. Enter the Serial Number above in for each of the LabVIEW applications, then click **Next**.
4. Enter your LabVIEW email and Password, then click **Next**.
5. Check the box if you are the end user for the LabVIEW products, then click **Next**.
6. Click **Next**.
7. You will receive a visual confirmation that the LabVIEW **Products Successfully Activated!**
8. Click **Finish**.
9. Your LabVIEW will now be licensed through the expiration date above.
