

How do I access the course reserves textbook order I submitted last semester?

Q: How do I access the course reserves textbook order I submitted last semester?

Answer

You may view materials that were processed for print reserves in the Libraries online catalog.

Go to the Libraries homepage libraries.mit.edu, and click on the course reserves tab in the quick search section at the top (tabs are yellow). You may search by course number or instructor keyword.

You will find any electronic reserves on the course Stellar site. We did have a technical issue with attachments in the TIP form for a while. If you do not see electronic reserves you requested, please let the libraries' reserves staff know and we will prepare the documents. To contact Libraries' reserves staff directly email lib-res@mit.edu.
