

Using QuickBase's app templates and example modules

Using QuickBase's app templates and example modules

QuickBase app templates are a great way to get ideas for use cases for QuickBase and to get a view into some simple and more complex QuickBase apps.

To look at QuickBase example apps:

- From the [QuickBase home page](#), select QuickBase Exchange.
- From the list on the left hand column, select Examples.

QuickBase Help Guides for app templates
