

How does this benefit my department?

Q: How does this benefit my department?

Answer

The number of steps needed to process a traditional order takes from 7-12 steps. This process will be reduced to about 3-4. There will be no need to fill out SAP or paper requisitions to process your order. No more time delays just call the orders in when the need arises. There will no longer be the requirement to reconcile your monthly statement for ProCard charges since they are reviewed up-front by your Verifier.
