

GAP Approvals Workflow

GAP Approvals Workflow

Some, but not all, appointments created in the Graduate Appointment Portal (GAP) will require approval by one or more departments. Conditions which require approval include:

HR Payroll

- PERNR is not valid for the dates of the appointment
- A retroactive change for a student who is currently an employee
- Prior calendar year amount or percentage changes, or changes after deletion
- Errors processing the appointment/distributions in SAP

ODGE

- Salary/stipend is greater than 15% above the standard rate
- Reasonable compensation rule is waived

SFS

- Student not eligible in current term, changes to prior term within same aid year
- Eligible and on degree list in current term, total amount changed (tuition/ins/SLF)
- Award created, changed or deleted prior to current term, or in prior aid year

VPF Sponsored

- Change of amount for WBS more than 90 days past end of fiscal year quarter

PowerFAIDS will receive a notification email if an appointment is created, changed or deleted from a previous aid year, although the appointment will not require their approval.
