

Safari PDF Display Problem

Safari PDF Display Problem

- Safari was unable to display pdf images in browser window
- Error message: 'browser does not support image display'

Solution

PDF plugin called PDF Browser Plugin found at <http://www.schubert-it.com/pluginpdf/>

(Free for educational use)

Usage Notes

- First set up under OS X 10.4.n
- Had to reinstall after latest updates to 10.6.8.
