How can I sponsor a community member or colleague for an MIT Kerberos account?

How can I sponsor a community member or colleague for an MIT Kerberos account?

Answer

Any current MIT faculty or staff member can sponsor a user for a guest Kerberos account. Off-campus graduate students can sponsor an account for their non-resident spouse or partner. The sponsored account will have "MIT Affiliate" status.

> ℹ️ **Guest Account Sponsorship Request Form** (Touchstone Required)

Bulk requests for guest accounts may be made by an authorized Access Approver using the MIT Campus Access system.
