I am a Temp or Contractor working for MIT. How do I get an MIT email account?

Q: I am a Temp or Contractor working for MIT. How do I get an MIT email account?

Answer

You must be sponsored by an MIT employee (such as your supervisor) to obtain a guest account.

Full information about MIT guest accounts is available here: http://ist.mit.edu/guest-accounts

The form for requesting a guest account is linked to from the bottom of that article and requires a Touchstone login to access.
