Financial Review and Control (FRC) Application FAQ

Financial Review and Control (FRC) Application FAQ

This page displays links to some of the most frequently asked questions related to the FRC application. Use the search field above for a broader search of The Knowledge Base.

Functionality

- How do I access the FRC application?
- Do I see the same information if I select "FRC Monthly Review Report – Cost Object" and "FRC Monthly Review Report – Transaction Type"?
- Which profit centers, supervisors and/or cost objects are visible to me?
- Why can I only see transactions for the past 6 months?
- When do new transactions become available for review?
- What does "Show Reviewed Items (Yes/No)" mean?
- Are there any transaction types that are excluded in the FRC application?
- Which transactions are highlighted for review in the FRC application?
- How can I go back and make a change to something I have already reviewed?
- What do the different colored lines represent?
- What does VR, DR and IS mean?
- What do the last two columns represent – Review Item and High Risk?
- Is there a character limit for the Comments field?
- I marked a transaction as Issue Identified – why does it keep appearing even when I select "Show Reviewed Items" as No?
- What do the "Set all CO Items as VR" and "Set all TT Items as VR" buttons mean?
- Will the application time-out if I don't press Save?
- What should I do if I'm experiencing slow response time in the application?

Reporting

- What is the 'FRC Transaction Count by CO' Report?
- What is the 'FRC Monitoring - Summary' Report
- What is the 'FRC Monitoring - Detail' Report

Business Process

- What is the goal and purpose of this FRC application?
- How does this application differ from the FRC Monthly Review Report that is currently available in Cognos?
- What is the FRC Reviewer Role?
- What is the FRC Monitor Role?
- Do I need to print and/or save a "sign off" sheet to show evidence of my review?
- If I can see a specific PC, Supervisor or Cost Object in the FRC tool, does that mean I am responsible for doing the monthly review?
- What are the definitions of the 'Reasons' listed in the drop-down list when I select 'Issue Identified'?
- Why are my routine monthly transactions being highlighted and considered high-risk?
- Some internal providers (Mail, IS&T, sequencing, etc) don't provide detailed documentation / receipts / invoices – why is Detailed Review the only option I can select?
