

How do I update the address in my Fidelity 401k account?

How do I update the address in my Fidelity 401k account?

The address information in your Fidelity 401k account is fed from your SAP record.

If you have a new address, you should change it in Atlas at:
<http://atlas.mit.edu> (requires certificates)

(Go to About Me > My Profile > Personal Information)

However, it can take a week or more for this updated information to be reflected in your Fidelity account.
