

Setting up a DUO D100 2FA Device - August 2019

Q: I picked up a DUO D100 Token after August 1,2019 - How do I register it?

Context

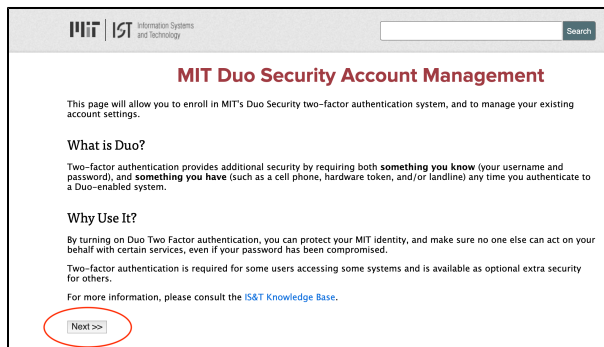

- As of August 2019, MIT provides an updated version of the DUO D100 Token (seen below)

- These tokens have changed the method to activate the device

Answer

1.) Go to duo.mit.edu click on the "next" button

2.) Log in using a personal certificate or Kerberos authentication

Touchstone@MIT

Welcome, please identify yourself to access MIT services.

Have an MIT certificate?

Use Certificate - Go

☐ Always login with this

No certificate? Use Kerberos username

Username: @mit.edu

Password:

Login

Have Kerberos tickets?

Use existing tickets - Go

☐ Always login with this

MIT IST

massachusetts institute of technology

3.) Once logged in, opt to "Register a New Hardware Token"

MIT Duo Security Account Management

You have the following devices associated with your account.

Phone Number	Phone Type	Platform	Options
[REDACTED]	[REDACTED]	[REDACTED]	Delete Phone Display Activation Code Send Activation Code
[REDACTED]	[REDACTED]	[REDACTED]	Delete Phone Display Activation Code

Token Type	Serial Number	Options
[REDACTED]	[REDACTED]	Delete Token
[REDACTED]	[REDACTED]	Delete Token
[REDACTED]	[REDACTED]	Delete Token
[REDACTED]	[REDACTED]	Delete Token Resynchronize Token

Available Options:

- Register a new phone
- Register a new hardware token
- Register a new tablet (iPad) or other device (iPod, iOS/Android phone without cellular connection)

4.) From the Drop down menu choose "D100"

MIT Duo Security Account Management

Please enter the information about your hardware token below.

Type:

Serial Number

YubiKey

Duo D100

5.) Enter the string of digits on the back of your device without the dashes. Then add "GO6OATH" directly after the digits (no spaces).
