## I've successfully connected to the Data Warehouse in Tableau, but I don't see anything. What do I do?

Q: I've successfully connected to the Data Warehouse in Tableau, but I don't see anything. What do I do?

## **Answer**

- 1. Click the Select Schema dropdown.
- 2. Type "WAREUSER" (in all caps).
- 3. Click the search icon.
- 4. Choose WAREUSER from the list.
- 5. Under Table, click the **search** icon to see a list of all the tables you have access to.
- 6. Double-click the detail table you'd like to report on, and then add any other dimension tables, updating joins as necessary.
