I want to update personal information for other employees, via Atlas. What authorization do I need?

I want to update personal information for other employees, via Atlas. What authorization do I need?

To use Atlas to update personal information for other employees, you will need the Roles Database authorization, MAINT EMPL. TELEPHONE DIR. The HR Primary Authorizer for your department can send email to business-help@mit.edu to request that the authorization be added for you. Once it has been added, the authorization will be available in Atlas the following day.
