Option 1: By the "Screen Resolution" menu

1. Right-click any empty area of your desktop, and then click **Display Settings**. (The screen shot for this step is listed below).

2. Click the **Multiple displays** drop-down list, and then select **Extend these displays**, or **Duplicate these displays**.

Note: If you cannot see the additional monitor(s) listed, click **Detect**. If this does not work, try restarting your computer and do step 1 to 2

again.

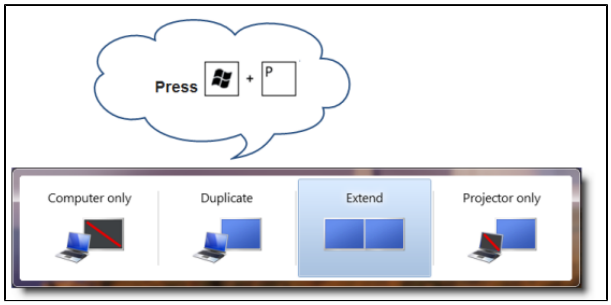

3. Click **Apply**.
4. Click **Keep changes**.

How to Change Dual Monitor Position

1. Right-click any empty area of your desktop, and then click **Screen Resolution**. (The screen shot for this step is listed above).
2. To adjust the orientation of your monitor, just drag and drop the appropriate monitor and place it wherever you want. You could move it to the right, left, top or bottom position.
3. Once you have placed the monitor in the position you want, click on the **Apply** button to apply the changes. It you are satisfied with the setup, click on the **OK** button.

Option 2: By keyboard shortcut "Win+P"

Press the **Windows logo key + P** on your keyboard. Select one of the following options according to your needs.
