What information do I enter to obtain an MIT personal certificate?

What information do I enter to obtain an MIT personal certificate?

To obtain an MIT certificate you need your:

- **Kerberos username:** The first part of your @mit.edu email address. For example, if your email address is jdoe@mit.edu, your Kerberos username is jdoe.
- **Kerberos password:** The password you use to check your @mit.edu email.
- **MIT ID number:** 9 digit number found on your MIT ID card. For example, 9xxxxxxxx.
- **A Duo Authentication Method:** Two-factor authentication, see: Duo Authentication Landing Page

Once you have these, get your MIT personal certificate at http://ca.mit.edu/
