Creating a New Block

1. From the *Admin menu*, click **Structure**, then **Blocks**.
2. Click **+Add block** in the upper left.
3. Add a **Title** which is the name visible to the user. If you do not want to show a title, leave this blank or enter `<none>`.
4. Add a **Description** which is the name of the block which will appear in the **Blocks** overlay screen.
5. In the **Body** field enter the content for this block. Block content is formatted like page content.

6. Select the Region in which your block will reside.
7. Make changes and additions to the block configuration options below the Block body.

REGION SETTINGS
Specify in which themes and regions this block is displayed.

MIT DLC (default theme)

Bartik
- None -

Visibility settings

Pages
Restricted to certain pages

Show block on specific pages
 All pages except those listed
 Only the listed pages

<front>

Specify pages by using their paths. Enter one path per line. The "*" character is a wildcard. Example paths are *blog* for the blog page and *blog/** for every personal blog. <front> is the front page.

Save block

These options give you great flexibility in setting who will see this block and when the block will be displayed:

- a. Pages: list specific pages to show or hide this block
- b. Content types: choose the type of page to show this block
- c. Roles: choose specific roles to view this block
- d. Users: allow users to determine if block is visible for them

8. When you are ready, **Save** your block. If you need to move your block you will find it on the Blocks overlay screen. Notice that not all blocks can be deleted. Some blocks are created by the system and may not be removed. Any block you create may be deleted.

Locating Blocks on Your Page

- You can identify blocks by the gear icon. When you hover at the top right corner of a block a gear icon appears. Click the gear to show the **Configure block** link which takes you to the block overlay screen where you can edit your block.

- Menu blocks have additional links which open screens to edit the menu or its links.
