How do I test my MIT personal certificate?

Q: How do I test my MIT personal certificate?

Steps

1. Go to http://web.mit.edu/certificates/test/ .
2. Click on the **Test my certificate** link to test the web certificate.
3. If your name and e-mail address are shown, then your certificate works. If you are not getting a page with these shown, then you do not have a working certificate. If this is the case, please see Certificates at MIT.

Quick Links

- Certificates at MIT.
