

Can an instructor use an e-mail address other than their MIT Kerberos Account as part of their contact information?

Q: Can an instructor use an e-mail address other than their MIT Kerberos Account as part of their contact information?

Answer

Unfortunately, no. If you wish to have e-mail sent to a different address than the user@mit.edu listed on the Stellar class homepage, you can have it [forwarded automatically](#) to a different e-mail address.
