MIT Events Calendar - Sponsored Events

MIT Events Calendar - Sponsored Events

Sponsored events are events that will appear to the top of the trending list with different styling applied for attention on the calendar homepage. Once a sponsored event is in the past, it will be removed from the homepage, but the sponsored styling will remain. An event can be featured and sponsored at the same time.

A sponsored event must be occurring in the next 90 days from the current day in order for it to be displayed on the homepage. Group and Department officers or group members can request their events be sponsored on the homepage by contacting the MIT Events Calendar Team at calendar@mit.edu. In your request, please include the **Event Name** or **Event URL** for review by the team. The Events Calendar Team will follow up about your request.
