How can I remove News or Blogs from my Drupal page?

Question: How can I remove News or Blogs from my Drupal page?

Answer

When using the MIT Adaptive theme, *Recent News* and *Recent Blogs* appear in the **Sidebar second** region on the right in blocks. These blocks may be easily disabled removing them from view.

1. From the Admin menu click **Structure** then **Blocks**.
2. In the *Sidebar two* region, locate the Recent News, or Recent Blogs block.
3. In the Regions popup list select *None*.
4. Click **Save blocks**.

Disabled blocks appear at the bottom of the **Blocks** overlay screen.
