How do I download or export student grades into a spreadsheet from my Stellar Course site

How do I download or export student grades into a spreadsheet from my Stellar Course site?

Within your Stellar course site

- Choose Gradebook
- Choose Students
- Under the "All assignments List View" pull down menu (over toward the right)
- Choose the option that best fits your needs.

The Wiki for each of the modules can be found under the "Help" menu and outlines various options:
