Delete MIT Personal Certificates in Chrome for Windows

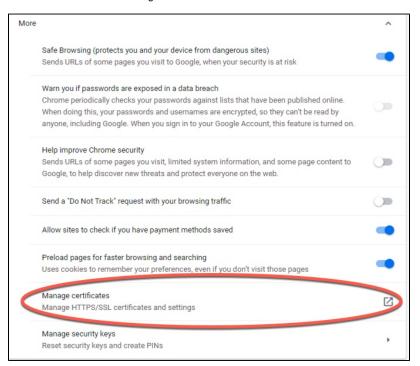

Delete MIT Personal Certificates in Chrome for Windows

WARNING: If you have used S/MIME for email encryption, you should export certificates, in order to retain a backup copy, before deleting them from the browser. How can I tell if I've used S/MIME for email encryption?

- 1. In your Chrome browser, go to chrome://settings/privacy
- 2. In the top "Privacy and Security section, select "More".
