

How do I use conditional statements in Xess?

How do I use conditional statements in Xess?

Xess allows you to use conditional statements using "@IF". Its syntax is:

```
@IF(X, T, F)
```

Returns the value of T if X evaluates to non-zero, or F if X evaluates to zero

X - numeric value

T,F - numeric or string values, cell or range references

For example, to get the following condition:

```
IF G7<(C7+E7) AND H7<(D7+F7) THEN "YES" ELSE "NO"
```

Type in an another cell:

```
=@IF( G7 < C7+E7 && H7 < D7+F7, "YES", "NO" )
```

NOTE: The "@IF" statement should be placed in a cell other than the cells specified within the (...) otherwise the result will be an infinite loop.
