

How do I edit a page in the Knowledge Base that doesn't have the menus on it?

How do I edit a page in the Knowledge Base that doesn't have the menus on it?

Go here and enter the URL:

<http://hermes.scripts.mit.edu/no-really.pl>

Note: Will not work on non-public-visible pages that *don't* have a pageID in the URL, will work everywhere else.
