Citrix Landing Page

On this page:

Overview

Citrix is a service that allows authorized users to run applications in a Windows-based remote environment. It's mostly used to allow Mac users to run Windows-only software such as BrioQuery, and for secure access to "boutique" software such as Adonis.

How to Obtain

To download Citrix, visit the IS&T Citrix page.

- Windows Citrix Workspace for Windows Installation and First Launch
- macOS Citrix Workspace for Macintosh Installation and First Launch

How to Use

- Getting Started with Citrix
- Open or save files in Citrix Workspace

Troubleshooting and FAQ's

- Access network drive while logged in to Citrix Workspace
- Citrix printing Right side of page cut off
- How do I configure my web browser to accept cookies?
- [istcontrib:IXOS printing via Citrix]
- Troubleshooting Common Citrix Application Launch Issues

Have Questions or Still Need Help?

- Contact the IS&T Service Desk
